

Amendments To The Drawings:

None.

Remarks

This Amendment is in response to the Final Office Action dated **March 2, 2010**.

A two month extension of time is required and requested to make this response timely.

Applicant appreciates the Interview on May 5, 2010. At that Interview, we discussed adding a deagglomeration step that is needed to deagglomerate the agglomerates that are formed because of the high temperatures. The addition of such a step was seen as patentable over the cited references. Additionally, we discussed additional data that could be generated and declarations concerning the claims as they stood unless a deagglomeration step was added.

Applicant has agreed to limit the claims as suggested by the Examiner in the Interview to add the deagglomeration step. It is respectfully submitted that all claims should now be allowable over the art.

Conclusion

It is respectfully submitted that claims 1-7 and 9-18, as amended, are patentable over the cited references. An early notice to that effect is requested.

Respectfully submitted,

VIDAS, ARRETT & STEINKRAUS
